

## COLONOSCOPY PREPARATION

### MEDICATION GUIDELINES

**PLEASE TAKE ALL YOUR REGULAR MEDICATIONS  
UNLESS OTHERWISE INSTRUCTED.**

**Warfarin or iron** should be stopped **5 days prior** to your procedure unless otherwise instructed by your doctor.

**Blood Thinners: patients taking Clopidogrel (Plavix/Iscover/CoPlavix), Apixaban (Eliquis), Dabiatran (Pradaxa), Rivaroxaban (Xarelto)** should discuss stopping their medication prior to their procedure with the doctor or practice nurse.

**Diuretics** should be stopped **the morning of your procedure.**

**Diabetic patients,** do not take your oral hypoglycaemics on the morning of your procedure.
